

```

graph TD
    A[Design Process] --> B[Define the Problem]
    B --> C[Generate Concepts]
    C --> D[Develop a Solution]
    D --> E[Construct and Test a Prototype]
    E --> F[Communicate the Solution]
    F --> G[Reflect on the Process]
    G --> A
  
```

The flowchart illustrates the Design Process as a continuous cycle. It begins with a box labeled 'Design Process', which leads to a series of steps: 'Define the Problem', 'Generate Concepts', 'Develop a Solution', 'Construct and Test a Prototype', 'Communicate the Solution', and 'Reflect on the Process'. These steps are connected by arrows, forming a loop that returns from 'Reflect on the Process' to 'Design Process'.
